

Welcome to this interactive virtual meeting room for the Gougar Road Study hosted by Will County Division of Transportation.

In this interactive virtual meeting room, you can view handouts, maps, and other material that were a part of the second Public Information Meeting held on October 4, 2022.

To the right, there are 3 rooms that contain different materials. Click on them to navigation to each page. To view each document, simply click on it, and a pop up will appear. You will have the ability to print, zoom, and download the documents. Physical copies of these documents are also available upon request from the Will County Division of Transportation office.

Also, near the bottom right of the screen is a link that will take you to the online comment form. Please fill this out if you have any questions or feedback!
